SAMSUNG

® "number one in brand loyalty six years in a row"

* Many of the services and features described above are network dependent and may require additional subscription and/or usage charges. Not all features are available for purchase or use in all areas. Other conditions and restrictions apply. See carrier for more information. All talk and standby times are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data, and other application usage patterns. Internet content/services designed for mobile devices.

** The Muse™ supports the following profiles: mono headset, stereo headset, handsfree, serial port, dial up networking, object push (vCard only), phonebook access, basic image (for pictures only) and basic print (for pictures only). The Muse™ does not support all Bluetooth OBEX profiles.
